

EPICOR

Strategic Pricing

POWERED BY  SPARXiQ

Maximize margins with Epicor's integrated pricing module for Prophet 21 and Eclipse

SPARXiQ partners with Epicor to provide a **powerful price optimization** solution for companies using Prophet 21 and Eclipse ERP systems. The integrated solution provides:

- ✔ **Additional functionality to more easily manage pricing directly in your ERP platform**
- ✔ **Data-driven pricing recommendations that maximize margins in low-sensitivity areas**
- ✔ **Comprehensive reporting dashboard to support continuous pricing improvement**

Over the past decade, hundreds of distributors have taken advantage of this integrated solution to increase their bottom-line profitability.

Unlock the power of your Epicor ERP to help you optimize pricing.

Epicor and SPARXiQ offer two primary levels of service to fit your needs.

As an entry-level offering, the Strategic Costing Module paired with **PriceGPS™ Lite** provides impressive results quickly, with minimal effort required, by simply identifying small margin opportunities within product groups and on individual SKUs.

Product-Specific Pricing

Strategic Costing Module + PriceGPS™ Lite

1-2%
Net Profit
Improvement

- ◆ Price each SKU strategically
- ◆ Native integration into Epicor ERP
- ◆ Minimal client resources required
- ◆ Results in under 30 days

For companies looking to take the next step, upgrading to the Strategic Pricing Module with **PriceGPS™** delivers even more significant results by strategically pricing customers based on type and size.

Customer- and Product-Specific Pricing
